HISTORY

The hotel Le Garage does not bear its name by chance. On the seafront, between the Golf course and the Biarritz lighthouse, the Garage has been a place that has known several lives... The luxury cars of the wealthy clients of the Regina were parked there, the planes of the Biarritz flying club were kept there for several years, and a gas station with a car garage was installed there. Then followed a long period of closure for more than 30 years before being bought back. To close a chapter of life, the building was invested by artists during the Colorama festival.

A rich past for this place so dear to the Biarrots before being reborn under a solar and friendly address.

CONCEPT

Behind this arched facade, which has been part of the Biarritz landscape for years, there are 27 rooms and suites with absolute comfort and beautiful terraces and patios with ocean views. The swimming pool surrounded by greenery and the friendly restaurant area complete the hotel's sunny decor. With a mix of natural materials and industrial details, the soul of the Garage lives on in these new, resolutely modern and relaxed spaces. From the lobby to the dining room overlooking the outdoor pool, this new space is a pleasure to be in.

LOCATION

Facing the Miramar beach, well known for its fine sand and its emblematic pierced rock, just a few steps from the Biarritz lighthouse and the Golf du Phare, the Hotel Le Garage exalts the surf & trendy spirit of the seaside city of Biarritz
The hotel is located in front of the Régina Biarritz hotel & Spa 5* - partner hotel with 72 rooms, a restaurant, a bar and a spa.

The rooms & suites

DECORATION

The Neo-Retro style can be found in the 27 rooms and suites of the hotel, between the ocean and the golf course, thanks to their private terraces and patios. In these private settings with a cosy design and absolute comfort, it is a pleasure to relax after a day of strolling in the Basque Country. In homage to the architecture of the place, everything here is curved: the Nood Co lightweight concrete sink, the La Quincaillerie Moderne and Flos spherical wall lamps, the M Nuance mirrors and the remarkable fabric headboard in the shape of an arch, the result of a collaboration between the upholsterer SoArt Workshop and Entsia, a local carpenter.

27 rooms and suites distributed as follows:

- 6 - Cosy rooms 28m²
- 8 - Cosy with garden on the ground floor
- 2 - Cosy Ocean Terrace (2nd floor ocean view terrace of 22m²)
- 3 - Suite Tribu 40m² (living room and bedroom separated)
- 3 - Tribe Suite with garden
- 3 - Studio Suite 41m² and terrace or patio with ocean view
- A Large Club Suite with XXL terrace and ocean view (70m² and premium equipment)
- A Large Panorama Ocean Suite with ocean view terrace (70m² and premium amenities)

On the walls, a borage green straight out of nature, in the bathroom, terrazzo with a mineral effect, large colored showers or copper island bathtubs from William Holland. On the floor, a carpet in soothing tones or parquet laid in waves, graphic wallpaper in the dressing rooms, linen curtains signed by Bérangère Leroy... Local and organic products from the 'Océopin' brand, carefully selected high-tech equipment: Roberts speaker with a vintage radio look, GPO Retro phone, faithful replica of the Princess phone, Sjöstrand espresso machine...
